

Contests for Students

The Twin Peaks Charter Academy Board of Director approves of the concept of educationally related contests provided they are pedagogically sound and administratively feasible.

The approval of the Administrator or designee shall be required in order to conduct a contest or activity involving awards to students by agencies outside of Twin Peaks Charter Academy. It shall be the responsibility of the Administrator to submit to the Board of Directors only those requests for contests, which are worthy of consideration.

In fulfilling this responsibility, the Administrator may solicit opinions from the staff with respect to requests being considered.

The Board of Directors shall limit participation in contests to those that are educationally sound, feasible and timely. Contest activities should be well planned by the originators so that there is minimal interference with classroom and school office work.

Adopted May 18, 2011
