Executive Summary Report

Overview of this Document

This report includes graphic and tabular representations of your 2014 TCAP test results for the district and for schools. It is designed with the following audiences in mind:

- School Board
- Press / Public
- District and School Accountability Committees
- District and School Administrative Leadership Team

The *Executive Summary Report* is available immediately after the test scores are released to districts, at a time when the most important questions to answer are:

- How does our performance compare to that of the state?
- How did our performance change this year compared with our performance in prior years?
- Are the students from various disaggregated groups performing equally well? If not, where are the gaps?

The *Executive Summary Report* addresses these questions directly. More extensive reports for the district and schools are generated after the state releases additional information in the weeks that follow the initial press conference.

Various accountability mandates require data to be reported in several different ways. The data in this report are presented for *all students* including students who eventually will be excluded from the School Accountability Reports and/or No Child Left Behind reports. Separate reports are produced by Alpine based on the specific inclusion and exclusion rules for each of these accountability mandates.

The minimum number of students in any given group necessary to generate a graph appears in the lower right corner of each page of this report. This number is set by the district or by the end user directly. If you print a report with a minimum of fewer than 10 students, we strongly suggest that you not share it publicly to protect the privacy rights of students.

The accuracy of the information in this report depends upon the accuracy of information in the TCAP/CSAP files and in other documents downloaded from the Colorado Department of Education (CDE) website. Historic achievement data were updated where necessary to reflect the state's rescaling of reading prior to 2001 and writing and math prior to 2002. The records are spot checked before reports are released, but if any school does not appear on this report (e.g., a new school this year), or if any result does not make sense, please contact Alpine and we will make any corrections necessary.

Legend: U=Unsatisfactory; PP=Partially Proficient; P=Proficient; A=Advanced; PA=Proficient + Advanced; NS=No Score

Notes: Results are reported in percentages. Percentages may not sum due to rounding. Minimum # of students required for summary reporting: 16

Overall Guiding Questions

This report contains a great deal of information. It is a report you probably will return to regularly as you share your results with many different audiences in the months ahead.

Look for patterns and trends throughout the report and consider the most important issues facing your district/school. You should be able to summarize the results for the district or for any school in 3-5 descriptive statements. This report is focused on the big picture, not on the details.

Below are some questions to keep in mind as you review your results. Additional questions that are specific to the interpretation of a particular graph format are shown below sample graphs on the next several pages. The questions below are just a starter list. You will have many more to add.

- How well did students in the district/schools perform on the tests overall? Were you pleased overall with student performance this year?
- Which grade levels did you think would do well? Did they perform as well as they should have?
- In which content areas did you expect the highest performance? What do the data suggest?
- In what ways are these data similar to other achievement data you have collected about students? In what ways are they different?
- Which schools showed the most improvement? Which showed the least improvement? Why do you think this occurred?
- What is the good news story from these results?
- What was a surprise?
- What concerns do you have after reviewing these results?
- Did you target specific areas for improvement this year? Was there a relationship between your focus area and performance? Were there trade offs in other areas?
- How might this information guide curriculum and instructional planning decisions in the district?
- What factors do you think are related to your performance?
- What targets will you set for achievement and/or improvement for next year's tests?
- What will you do now?
