TPCA TEAM WINS 1st PLACE IN ENGINEERING COMPETITION AT METROPOLITAN STATE UNIVERSITY'S MATH DAY 2015

Twin Peaks Charter Academy (TPCA) placed first in the Engineering Competition at the 28th Annual Math Day Competition, hosted by Metropolitan State University of Denver. The Math Day competition featured 29 teams from 14 area high schools, including approximately 116 local students competing in various math and engineering events. The competition focused specifically on algebra, analysis, and geometry. The goal of the event was to encourage interest in math and science and foster constructive competition among area high schools.

"The Math Competition at Denver Metropolitan State University was an amazing experience! Everything in the competition (whether Algebra, Engineering, or Geometry) was super fun! It was a great chance for my whole team and I to come together and come up with solutions as a group. This competition was a great team building exercise and I thoroughly enjoyed the opportunity to win and compete! I am so proud of my whole team for making it to first place in the Engineering competition! I'm looking forward to next year." - Tanvi Beri (9th grade TPCA Student)

"This was a wonderful opportunity for our TPCA high school students to compete with other quality high school students from the Denver-Metro area. I credit TPCA's vision of a college preparatory classical education school, established by our parent-led Board of Directors, and our dedicated teaching staff for their commitment in challenging our students to excel. As a result, our students are confident, articulate and equipped to pursue multiple college programs when they graduate from Twin Peaks Charter High School," said TPCA Director, BJ Buchmann.

Winning TPCA team members include Caroline Van Tiggelen, Timothy Gross, Tanvi Beri, and Abigail Wanninger. TPCA teacher Brad Carsten said, "It was great seeing all of the kids working together to problem solve. They all learned a lot and had a great time. We look forward to attending again next year!"

Also competing in the Math Day events from TPCA were Joseph Wanninger, Hannah Schauer, Sabastian DeLeon, and Evan Young.

TPCA is a tuition-free public K–12 school of choice in the St. Vrain Valley School District. We provide students with the foundations of virtue and character while building cultural literacy through a rigorous, content-rich curriculum in an encouraging environment. TPCA is centrally located in Longmont on Sunset between Boston Avenue and Nelson Road.
